How to Know Royal Granite Steel Ware

You can always know Royal Granite Steel Ware by its label and by the beautiful gray-blue of the shade peculiar to itself, which makes the most attractive of all kitchen-ware.

Coffee Pots

which may be perfectly cleaned not only from the "grounds," but from the taint of sudden sold coffee, with mere rinsing; no sharp corners or pestering joints; other valuable improvements.

Berlin Saucepans

Most used of kitchen tools in its best dress; very light; very strong; not a seam; top of heavy tin; wood knob always cool.

Royal Granite Steel Ware

is formed from sheets of high-grade steel, without cement or solder. After careful inspection, it is evenly enameled and brought to a beautiful finish. Everyone may have these delightful kitchen helps at a little more than cost of common tinware.

J. S. DISTRICT JUDGE

Senator Fulton's Recommendation Will Carry Weight.

SENATOR IS NONCOMMITTAL

Believed That He Favors Judge Thos. A. McBride or W. W. Cotton, the Latter Having Judgeship Aspirations and Will Decide This Week.

Portland, May 27.—United States Senator Charles W. Fulton is in Portland and has been for several days, and his presence here is believed to have something to do with the appointment of a United States district judge to succeed the late Judge C. B. Bellinger. Mr. Fulton is non-committal and refuses to say who he will recommend, but does state that a recommendation will probably be made this week and an appointment will be made within a very short time.

It has been hinted at various times that Senator Fulton may make a recommendation in favor of Circuit Judge Thomas A. McBride of the judicial district embracing Astoria.

It is also bruited in certain quarters that W. W. Cotton is Fulton's choice. The source of these latter reports make them well worthy of consideration, if it does not actually entitle them to belief. It has been said by men close to Mr. Cotton, and therefore qualified to know the bent of that astute gentleman's mind, that the ambition of Mr. Cotton's life is to obtain appointment to the federal bench. True, his ultimate aim is to achieve higher things than a mere district judgeship—in fact he is said to aspire to sit some day in the supreme court of the United States—but the district judgeship here is regarded by him, it is declared, as a good starting point.

Just now Mr. Cotton holds the important post of general counsel for the Oregon Railroad & Navigation Company, and his practice nets him annually at least three times as much as the amount of a year's salary for a federal district judge. But Mr. Cotton is well to do and could afford, if he wanted to, to resign an \$18,000 practice for the sake of a \$6000 place on the bench.

NEW YORK, MILK SUPPLY.

Important Matter of Purity Being Investigated by Authorities.

New York, May 27.—With a view to bringing the milk supply of the city to the highest possible state of purity inspectors under Commissioner of Health Darlington have just finished an examination of nearly all the dairies and creameries from which the supply is obtained along the lines of the four large railroad systems extending through southern and central New York.

Of a total quantity approximating 1,400,000 quarts sent into the city every day 800,000 quarts were inspected, and the condition was found to be "fair." The examination had no bearing on adulteration but only with the character and condition of the buildings, including walls and ceilings, drainage, sterilization, and many other details. Wherever necessary the dairy-men and shippers were offered suggestions as to the remedy.

REMARKABLE CASE.

Man With a Broken Neck Lives for 10 Months in Hospital.

New York, May 27.—After lying in a Brooklyn hospital for almost ten months with a broken neck and injuries to his spine, in which time physicians from all parts of the country have visited him, Thomas O'Brien is dead. When O'Brien, who was 22 years old, received his fall, arrived at the hospital the surgeons ventured an opinion that he might live for a day or so, but instead of dying when they predicted, he grew stronger and made a fight for life which attracted much attention among members of the medical fraternity.

RAILROAD SIGNALS.

New Electrical Appliance for the Prevention of Accidents.

Chicago, May 27.—The Illinois Central railway has begun to install an electrical interlocking device on 600 miles of its main track and plans to extend it over the entire system as soon as possible.

The device consists of an electrical arrangement in each tower, which prevents the operator from changing his own signals until the man in the next station releases the lock. Under the ordinary block signal the movement of trains has been controlled by one signalman at a time.

TO HONOR THE DEAD.

Program of the Memorial Exercises to Be Held Tuesday Next.

Cushing Post, Ladies of the G. A. R. and W. R. C. will meet at post hall at 10:30 A. M. sharp, from there will march to the Flavel dock, escorted by

the Boy's brigade, where the services of decorating the water by the W. R. C. will take place. After which all will march to the depot and take regular train for Ocean View cemetery, returning on the same regular train.

The public entertainment will take place at Fishers' opera house at 8 p. m. Invocation Rev. L. D. Mahone
